

Automation & Robotics Design & Integration

Robotics - Conveyance - Assembly - Testing - Gauging

**In-House Design and Build
Runoff and In-plant Setup**

Remaining competitive in today's global economy requires high levels of efficiency and prudent implementation of effective labor saving devices.

PPI provides the technology and experience necessary to accomplish these demanding goals.

With full in-house capabilities, PPI can help you achieve optimum performance from your automated systems.

Single Source Responsibility

In-House Design - Mechanical, Electrical and Controls

Complete In-House Manufacturing

Full Inspection and Certification

On-Site System Setup and Runoff, (Including PPAP)

24 Hour Emergency Service

Turnkey Systems and Installation

Robotics Integration

**Complete Turnkey
System Solutions**

**Serving All Your
Automation & Robotics Needs**

Greenwood, Indiana, USA
