

# Remote Mobile Showers (ReMS)

Precision Products' Remote Mobile Showers (ReMS) can be quickly and easily deployed. No other units are designed to offer the same rugged durability under high utilization levels and environmental extremes.

The entire ReMS system is configured to support high-volume throughput of personnel. All electrical and mechanical systems are designed to achieve the ultimate in reliability and durability. We also offer several heating, cooling and insulation packages, matched to virtually any climatic condition.

Our ReMS offer higher quality and value over their entire useful life. These units are unsurpassed in dependability, and provide years of trouble free operation.

ReMS have many available options and are custom designed to support your individual needs.
